PROJECT TITLE: TSRA Residence # 1 Plumbing Repairs

LOCATION: Tahoe State Recreation Area

COUNTY: Placer

DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT:

Repair of broken water lines in Historic Residence # 1 at Tahoe State Recreation Area. Emergency work is needed to repair the damaged plumbing system from frequent freezing/thawing cycles resulting in broken pipes. The water piping system will tee off the service entry connection after the main shut-off valve, and surface mount the cold and hot water lines to the outside of the building, teeing off the system into the structure at each utility connection. A 18x8x18 inch hole will be excavated to replace the existing wooden (non-historic) valve box. Installation of plumbing pipes over the 1x12 inch fir board that presently is attached to the structure's girders and posts to restrict animal occupation.
